Graphic design by Maria Glyka and Dimitra Charamandas

UNFROZEN EDUCATION - Or How To Relearn invites us to sharpen our sensibility and develop responsible approaches to the issues of our present while creating ways toward sustainable futures. More than ever it is essential to unlearn the patterns of an anthropocentric view of our planet and a masculinely molded capitalistic society and think in a more inclusive way. Education Sciences and Visual Arts highlight the need for systematic response through the *paideia* of the citizens of Modern Societies. Pedagogy along with the Arts offers us many unpredictable perspectives to think critically for rebuilding a new open and democratic world.
